Mr. Williscroft:

Just a note re. your Letter to the Editor
on 8/31/83.

As a professional with a large law firm,
father of two children, and homeowner I felt
compelled to vent some of my anger towards the
most biased, militaristic-minded, and unfair
president in our country's history.

Reagan's visit provoked anger such as that
I have never seen directed at any public office-
holder, including Richard Nixon. Speaking to
a physician yesterday he expressed the feeling
that with Nixon you felt some hope you could
reason with the man, but with Reagan that he
really believes the things he says and that attitude
brought out the anger I saw displayed at the
Seattle Center that day.

As for your closing in your letter, we
need Ronald Reagan like a hole in the head!
